EnviroMission Engages Ritoch-Powell & Associates: Aerial Survey and Site Mapping Underway

[EnviroMission](#) has engaged aerial mapping and land surveying services from Ritoch-Powell & Associates (RPA) to inform Solar Tower power station development in La Paz, Arizona.

Ritoch-Powell & Associates (RPA) is an Arizona engineering and surveying consulting services company that has provided services to award winning private and municipal projects in Arizona for over 33 years.

Ritoch-Powell will provide aerial mapping and land surveying services to support EnviroMission's 200MW Solar Tower development planned for La Paz.

Ritoch-Powell's technology and equipment, including high-tech off-road vehicles for remote & challenging sites, and Trimble R8 GNSS GPS systems, has ensured surveying and mapping of the La Paz site is being completed on schedule.

"Ritoch-Powell & Associates is very honoured and proud to be a part of this "outside-the-square" energy project.

"This project could change how people think about alternative energy and the benefits it will create for our children, and our children's children.

"Ritoch-Powell & Associates look forward to attending the ribbon cutting ceremony for the first Solar Tower to witness the first Watt of power being generated," said Karl G. Obergh, PE, President Ritoch-Powell & Associates.

EnviroMission Chief Executive, Roger Davey, said "Solar Tower power station delivery is dependant on many varied skills and services, none less critical than the important contribution of mapping and surveying services provided by Ritoch-Powell & Associates."

"Ritoch-Powell's expert services and support forms a vital aspect to the successful execution of the front end engineering and design phase of Solar Tower development at La Paz," added Mr Davey.
